PROFESSIONAL EXPERIENCE

Alumnus Software Limited

Sep 2024 – Present

Software Engineer (promoted from Engineering Intern, Sep 2025)

Kolkata, India

- **HomeGuru – Real Estate AI (US startup client):** Built a full-stack AI property-analysis proof of concept that parsed **8 distinct PDF schemas** (MLS listings, inspection reports, permits) using the **OpenAI API** for automated data extraction and semantic querying; the POC anchored the client's investor funding pitch.
- **Zebra Zac – Android chatbot (Zebra Technologies):** Developed the Phase-1 chatbot app in **Kotlin** and **Jetpack Compose**, designing the conversational UI flow and integrating secure **REST APIs** for wholesale inventory queries; piloted in Zebra-operated retail stores in the US.
- **Alumnus Stock Trader – FinTech:** Owned end-to-end development of the **React (TypeScript)** frontend and **Node.js** middleware for a full-stack stock trading platform, and contributed to rearchitecting **9 Python FastAPI microservices** for improved scalability and performance.
- **ICON Clarify – Real Estate:** Developed the seller-side portal and drove its migration to **React + TypeScript + Vite**, establishing a modular component architecture and cleaner state management to speed up feature delivery.
- Deployed and maintained application services on **GCP**, handling cloud infrastructure, environment configuration, and releases across projects.

Magitech Innovision PVT LTD

Jan 2024 – Jun 2024

Frontend Developer Intern

Guwahati, India

- **EventBoom.in:** Built a scalable event-management frontend with **ReactJS** and **Firebase**, hosted on **AWS**; handled **1,000+ registrations** during peak event periods.
- **AIM Quest:** Engineered a registration portal for the Assam Institute of Management with automated ticket generation, serving **500+ participants**.

PROJECTS

- **BT-Clothing (E-commerce):** Full e-commerce platform using **React (TypeScript)**, **Firebase**, and **Stripe API** with user authentication, persistent cart, and secure payment processing. (github.com/RaghavB05)
- **Campus Connect:** Community resource-sharing platform built with **Django** and **SQL**, featuring custom CRUD operations and relational database schema design.
